THE INVESTMENT CASE

The window before a region reprices itself.

In September 2024, PM Modi dedicated AURIC Bidkin - a 7,855-acre greenfield industrial city under the Delhi-Mumbai Industrial Corridor, backed by Rs.6,414 crore in government infrastructure. Toyota-Kirloskar, Ather Energy, Lubrizol and JSW Green Mobility have committed Rs.56,200 crore in private investment with 30,000+ jobs expected.

Village Zalta sits 12 km from Sambhajnagar city centre, directly on the planned Shendra-Zalta highway corridor. Between the city and the industrial zone - precisely where residential and investment demand will concentrate as Bidkin scales.

The gap between what is happening at Bidkin and what the market has priced into surrounding land values is the opportunity. That gap is finite.
